**** The M-32-12 CP has a 630mm scale length and the body-neck-joint at the 12th fret

***** Baritone guitars always have a 680mm scale length

A, M, D and J models are equipped with a Lakewood Hiscox hard case, C models with a Lakewood gig bag.

The Lakewood Customshop

Recommended retail prices (surcharges) in Euro (€) incl. 19% VAT.

In the Lakewood Customshop you can put your very own personalized guitar together if you can't find the right guitar for you within the models of our standard series.

Hints before you start: Your Customshop guitar is based upon a foundation model, whose features are marked with the words "Standard" in the following list. By choosing different options in each category you can design this base model individually and make it your private guitar. Prices need to be added accordingly. At www.lakewood-guitars.com you will find the Lakewood Guitar-Designer that enables you putting the guitar together virtually. With this unique configuration tool you are producing your guitar three-dimensionally on the screen and have a look at

it from different angles.

We strongly recommend using this tool as it will help you to achieve a conclusive design. In the course of designing you can generate an overview with all details, save your design as a PDF file and reload it back in the Designer at a later stage again to continue your work.

If you want to order a guitar you just follow the order request wizard, which will guide you through a step by step assistant to pick a dealer, generate an order code and eventually place your order.

The following list shows the available features with their according surcharges grouped in categories.

Start configuration

Body shape & base price

The calculation of the total price of the guitar starts with the base price	
For the shapes A, M and D (incl. Lakewood Hiscox hard case)	2.095 €
For the C-shape (incl. Lakewood gig bag)	1.885 €
For the J-shape (incl. Lakewood Hiscox hard case)	2.200 €

Guitar type

6-string steel-string acoustic guitar	Models C, A, M, D, J
12-string steel-string acoustic guitar*	Models M, D, J
Baritone guitar**	Models M, D, J
Nylon-string guitar	Models A, M
Acoustic Bass	Model A

Orientation

Right-hand version	Standard, all models
Left-hand version	no surcharge, all models

European woods

A Customshop guitar can be configured in a way that only makes use of European timbers. This option needs to be selected in the very beginning of a designing process. After that only certain (European) materials are being shown in the selectable options. no surcharge

- * 12-string models come with a 630mm scale length
- ** Baritone guitars always have a 680mm scale length
- ***C shape models always have a 630mm scale length with body neck joint at the 12th fret

You have no idea what some options look like or how they work together?

Under the *Customshop* menu item on our website www.lakewood-guitars.com you will find various sample photos, a wood guide, explanations and overall assistance.

An important core function is performed by the Lakewood Guitar Designer, an online configuration tool that helps you putting together your Customshop guitar. A photorealistic 3D model is generated in real time, which provides information about the look of the guitar and thus gives you confidence and advice in the design. Further information can be found in our catalog from page 5 onwards.

For ordering a guitar use the function *Place Order Request* in the Guitar Designer to contact a dealer of your choice and initiate an order.
