A, M, D and J models are equipped with a Lakewood Hiscox hard case, C models with a Lakewood gig bag.

The Lakewood Customshop

Recommended retail prices (surcharges) in Euro (€) incl. 19% VAT.

In the Lakewood Customshop you can put your very own personalized guitar together if you can't find the right guitar for you within the models of our standard series.

Hints before you start: Your Customshop guitar is based upon a foundation model, whose features are marked with the words "Standard" in the following list. By choosing different options in each category you can design this base model individually and make it your private guitar. Prices need to be added accordingly.

At www.lakewood-guitars.com you will find the Lakewood Guitar-Designer that enables you putting the guitar together virtually. With this unique configuration tool you are

producing your guitar three-dimensionally on the screen and have a look at it from different angles.

We strongly recommend using this tool as it will help you to achieve a conclusive design. In the course of designing you can generate an overview with all details and save your design as a PDF file. If you want to order a guitar you just follow the order request wizard, which will guide you through a step by step assistant to pick a dealer and generate an order code.

The following list shows the available features with their according surcharges grouped in categories.

Start configuration

Body shape & base price

The calculation of the total price of the guitar starts with the base price	
For the shapes A, M, D or J	1.803 €
For the C-shape	1.603 €

Guitar type

6-string steel-string acoustic guitar	Models C, A, M, D, J
12-string steel-string acoustic guitar*	Models M, D, J
Baritone guitar**	Models M, D, J
Nylon-string guitar	Models A, M

* 12-string models always have a 630mm scale length and the body-neck-joint at the 13th fret

** Baritone guitars always have a 680mm scale length

Note: The nylon string guitar type is not yet implemented in the guitar designer. In case you've got Customshop requests for nylon string models, please contact us by phone or email.

Orientation

Right-hand version	Standard, all models
Left-hand version	no surcharge, all models

European woods

A Customshop guitar can be configured in a way that only makes use of European timbers. This option needs to be selected in the very beginning of a designing process. After that only certain (European) materials are being shown in the selectable options. no surcharge

You lack the idea how one of the options looks like or how different options work together?

Under the *Customshop* menu item on our website www.lakewood-guitars.com you will find various sample photos, a wood wizard, explanations and assistance.

An important core function is performed by the Lakewood Guitar Designer, an online configuration tool that helps you putting together a guitar. It generates a photo-realistic 3D model in real time, which provides information about the appearance of the guitar and thus gives you confidence and advice in the design. You can find more information in our catalog starting on page 35. To order a guitar please use the function *Place Order Request* in the Guitar Designer to contact a dealer of your choice and initiate an order.
