Quality woods and inherent value are the important corner stones of our Premium Series. Allow us to demonstrate how guitars are able to manifest sophistication. Introducing the Lakewood custom shop, one might well begin with selection of the relevant tone woods.

The burnished appearance and strong lines of the cocobolo back and sides are immediately striking visually. But then, in combination with the top quality AAAA European spruce sound board, the D-53 Premium achieves tonal excellence in regard to both volume and complexity. The L. R. Baggs "Anthem" Pickup System amplifies these attributes authentically for the enjoyment of audiences.
